NOTE: This document does not purport to cover the so-called "function call" applications that use U-Boot services by means of the jump table provided by U-Boot exactly for this purpose - this is merely considered normal use of U-Boot, and does *not* fall under the heading of "derived work".

The header files "include/image.h" and "include/asm-*/*u-boot.h" define interfaces to U-Boot. Including these (unmodified) header files in another file is considered normal use of U-Boot, and does *not* fall under the heading of "derived work".

Also note that the GPL below is copyrighted by the Free Software Foundation, but the instance of code that it refers to (the U-Boot source code) is copyrighted by me and others who actually wrote it.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Library General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free

70 program will not contain patent licenses to effect any patent rights.
71 program proprietary. To prevent this, we have made it clear that any
72 patent must be licensed for everyone's free use or not licensed at all.
73

74 The precise terms and conditions for copying, distribution and
75 modification follow.

76 **FF**

77 **GNU GENERAL PUBLIC LICENSE**
78 TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

80 0. This License applies to any program or other work which contains
81 a notice placed by the copyright holder saying it may be distributed
82 under the terms of this General Public License. The "Program", below,
83 refers to any such program or work, and a "work based on the Program"
84 means either the Program or any derivative work under copyright law:
85 that is to say, a work containing the Program or a portion of it,
86 either verbatim or with modifications and/or translated into another
87 language. (Hereinafter, translation is included without limitation in
88 the term "modification".) Each licensee is addressed as "you".
89

90 Activities other than copying, distribution and modification are not
91 covered by this License; they are outside its scope. The act of
92 running the Program is not restricted, and the output from the Program
93 is covered only if its contents constitute a work based on the
94 Program (independent of having been made by running the Program).
95 Whether that is true depends on what the Program does.
96

97 1. You may copy and distribute verbatim copies of the Program's
98 source code as you receive it, in any medium, provided that you
99 conspicuously and appropriately publish on each copy an appropriate
100 copyright notice and disclaimer of warranty; keep intact all the
101 notices that refer to this License and to the absence of any warranty;
102 and give any other recipients of the Program a copy of this License
103 along with the Program.
104

105 You may charge a fee for the physical act of transferring a copy, and
106 you may at your option offer warranty protection in exchange for a fee.
107

108 2. You may modify your copy or copies of the Program or any portion
109 of it, thus forming a work based on the Program, and copy and
110 distribute such modifications or work under the terms of Section 1
111 above, provided that you also meet all of these conditions:
112

113 a) You must cause the modified files to carry prominent notices
114 stating that you changed the files and the date of any change.
115

116 b) You must cause any work that you distribute or publish, that in
117 whole or in part contains or is derived from the Program or any
118 part thereof, to be licensed as a whole at no charge to all third
119 parties under the terms of this License.
120

121 c) If the modified program normally reads commands interactively
122 when run, you must cause it, when started running for such
123 interactive use in the most ordinary way, to print or display an
124 announcement including an appropriate copyright notice and a
125 notice that there is no warranty (or else, saying that you provide
126 a warranty) and that users may redistribute the program under
127 these conditions, and telling the user how to view a copy of this
128 License. (Exception: if the Program itself is interactive but
129 does not normally print such an announcement, your work based on
130 the Program is not required to print an announcement.)

131 **FF**

132 These requirements apply to the modified work as a whole. If
133 identifiable sections of that work are not derived from the Program,
134 and can be reasonably considered independent and separate works in
135 themselves, then this License, and its terms, do not apply to those
136 sections when you distribute them as separate works. But when you
137 distribute the same sections as part of a whole which is a work based
138 on the Program, the distribution of the whole must be on the terms of

142 Thus, it is not the intent of this section to claim rights or contest
143 your rights to work written entirely by you; rather, the intent is to
144 exercise the right to control the distribution of derivative or
145 collective works based on the Program.

146 In addition, mere aggregation of another work not based on the Program
147 with the Program (or with a work based on the Program) on a volume of
148 a storage or distribution medium does not bring the other work under
149 the scope of this License.

151 3. You may copy and distribute the Program (or a work based on it,
152 under Section 2) in object code or executable form under the terms of
153 Sections 1 and 2 above provided that you also do one of the following:

156 a) Accompany it with the complete corresponding machine-readable
157 source code, which must be distributed under the terms of Sections
158 1 and 2 above on a medium customarily used for software interchange; or,

160 b) Accompany it with a written offer, valid for at least three
161 years, to give any third party, for a charge no more than your
162 cost of physically performing source distribution, a complete
163 machine-readable copy of the corresponding source code, to be
164 distributed under the terms of Sections 1 and 2 above on a medium
165 customarily used for software interchange; or,

167 c) Accompany it with the information you received as to the offer
168 to distribute corresponding source code. (This alternative is
169 allowed only for noncommercial distribution and only if you
170 received the program in object code or executable form with such
171 an offer, in accord with Subsection b above.)

173 The source code for a work means the preferred form of the work for
174 making modifications to it. For an executable work, complete source
175 code means all the source code for all modules it contains, plus any
176 associated interface definition files, plus the scripts used to
177 control compilation and installation of the executable. However, as a
178 special exception, the source code distributed need not include
179 anything that is normally distributed (in either source or binary
180 form) with the major components (compiler, kernel, and so on) of the
181 operating system on which the executable runs, unless that component
182 itself accompanies the executable.

184 If distribution of executable or object code is made by offering
185 access to copy from a designated place, then offering equivalent
186 access to copy the source code from the same place counts as
187 distribution of the source code, even though third parties are not
188 compelled to copy the source along with the object code.

189 **FF**

190 4. You may not copy, modify, sublicense, or distribute the Program
191 except as expressly provided under this License. Any attempt
192 otherwise to copy, modify, sublicense or distribute the Program is
193 void, and will automatically terminate your rights under this License.
194 However, parties who have received copies, or rights, from you under
195 this License will not have their licenses terminated so long as such
196 parties remain in full compliance.

197 5. You are not required to accept this License, since you have not
198 signed it. However, nothing else grants you permission to modify or
199 distribute the Program or its derivative works. These actions are
200 prohibited by law if you do not accept this License. Therefore, by
201 modifying or distributing the Program (or any work based on the
202 Program), you indicate your acceptance of this License to do so, and
203 all its terms and conditions for copying, distributing or modifying
204 the Program or works based on it.

205 6. Each time you redistribute the Program (or any work based on the

Program. The recipient does not receive any rights from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

FF

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

278 11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY
279 FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN
280 OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES
281 PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED
282 OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
283 MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS
284 TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE
285 PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING,
286 REPAIR OR CORRECTION.

287 12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING
288 WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR
289 REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES,
290 INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING
291 OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED
292 TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY
293 YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER
294 PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE
295 POSSIBILITY OF SUCH DAMAGES.
